

## **Towards a fairer, care-focused Europe!**

Event in the framework of the 6th Progressive Youth Forum

Thursday 4 March, 14:00 – 15:15

Women carry the lion's share of both paid care work and unpaid care – even more so during the past year. But despite all the clapping from the balconies last year, they continue to suffer from a severe lack of recognition for the real worth of the tasks they are executing. All too often, women work in underpaid, precarious or even completely invisible conditions.

To uphold their rights and fully leverage their full potential, we intend to give a voice to the carers themselves and let them highlight their main challenges. Join us for an exchange with gender equality experts and care workers to identify the core challenges and formulate concrete and progressive recommendations that help realize a real shift towards a people-oriented Europe!

### **PROGRAMME**

#### **14h00 Introduction & Welcome Remarks**

**Agnes Mach**, Friedrich-Ebert-Stiftung EU-Office
