ABOUT THE EVENT/ÜBER DIE VERANSTALTUNG

Populism was the buzz word of 2016. From Brexit to Trump, journalists and pundits agreed that populism is on the rise and is shaking up western democracies. But what is populism and why is it so successful now? The origin for this phenomenon dates already back a few decades. All over Europe the political class seems to be shifting towards the extreme right and countries like Denmark, France, Hungary, Holland and Germany seem to increasingly become more adherent to populism tactics. The seeds for this turn, however, date back to politicians like Glistrup in Denmark, Marie Le Pen in France and similarly in other countries. The prime-minister of Hungary is living proof of the rise of the influence of the extreme right in European politics. Cas Mudde will analyze the history and current developments of populism in western democracies, addressing both its causes and consequences.

Was ist Populismus? Egal ob Brexit oder Trump, Journalisten und Kommentatoren sind sich darüber einig, dass der Populismus Aufwind gewinnt und westliche Demokratien verändert. Was genau ist also Populismus und warum ist das Konzept gerade jetzt so erfolgreich? In ganz Europa scheinen die politischen Lager nach rechts zu driften, Länder wie Dänemark, Frankreich, Ungarn, Holland und Deutschland scheinen immer mehr populistischen Taktiken zu verfallen, die u.a. zurückgehen auf Politiker wie Glistrup in Dänemark und Le Pen in Frankreich. Cas Mudde wird die Geschichte und Gegenwart des Populismus' in westlichen Demokratien analysieren und einen Ausblick auf die zukünftigen Entwicklungen geben.
