

PEACE AND SECURITY POLICY IN THE 21st CENTURY

5th Egon Bahr Symposium
On the occasion of the
100th birthday of Egon Bahr

March 18, 2022 | Berlin + ONLINE

Dear Ladies and Gentlemen,

Egon Bahr was not only an essential architect of the Willy Brandt government's policy of détente and Ostpolitik, but also a mastermind for common security and peace in Europe. He had the ability to think strategically in long lines and to include other policy fields. On March 18, 2022, Egon Bahr would have turned 100 years old.

The aim of the 5th Egon Bahr Symposium is to assess the current situation after the breach of international law by Russian President Putin and to reflect on short- and medium-term consequences. In doing so, we will discuss the challenges for the new European security architecture and then turn to the global prospects for security and peace in Asia.

After an impulse in each case, questions of regional, European and global security will be discussed in two panels. The first panel will deal with the European situation. The second panel will address Europe's role in the Indo-Pacific in light of the new alliance dynamics in the region.
