

# FES Team IT-International

## Device specifications for Workstations

Status: September 17.2019

- For the procurement of terminal equipment in the international offices of FES, the devices of the Dell company with the **specifications listed below must be complied with bindingly** until further notice.
- Please note that workstations are either equipped with a **desktop PC** for colleagues working in the office only, **or with a laptop computer attached to an external screen and a docking station** for colleagues working out of office from time to time. If you need a laptop computer, you can choose between two sizes. In order to reduce the number of devices and save on software license fees, so-called travel laptops must no longer be used. An exception are laptops used for events and guests which need not to be connected to the FES network. For such devices, the specifications below do not apply.
- Please note that the **PCs used for FibuAP** should only be replaced if a device is defective and a replacement is unavoidable. In the latter case, please procure the desktop device listed in the appendix. It should also be noted that, in addition to the technical specifications, the known procurement guidelines also apply.
- If you have any **questions**, please feel free to contact us at [it-international@fes.de](mailto:it-international@fes.de).

 USB-C

**Dockingstation for Notebooks**

Dell Dock WD15, 130 W, with Mountingkit 575-BBIV  
 or

Dell Dock WD19, 130 W, with Mountingkit 575-BBIV

**Additional monitor for notebooks with docking station**

Dell P2419H Professional HAS LED Flatscreen 23,8" (IPS), 16:9, VGA, HDMI 1.4,  
 Displayport 1.2, 2xUSB 2.0 (bottom) 2xUSB 3.0 (side),black, 1.920x1.080 (Full-HD)  
 Height adjustable

either laptop or desktop workstation; "travel laptops" no longer used

If you have any questions about specifications, please contact [it-international@fes.de](mailto:it-international@fes.de)

It takes time: Procurement of enterprise devices > 4-6 weeks

in "difficult countries" look for service providers who specialize in importing IT equipment; do not give up quickly

Enjoy new hardware ;-)))
